Re: United States Patent for *METHOD AND APPARATUS FOR
IMPRINTING, DRYING, AND REELING A FIBROUS WEB*
Application No. 09/596,187; Filed June 16, 2000
Patent No. 6,398,909; Issued June 4, 2002
Our File 041013/199190

Dear Mr. Fries:

In our file review for the above-referenced patent, we note that there is a discrepancy in PAIR and the patent term adjustment printed on the face page of the patent. For your convenience, we enclose a copy of the PAIR printout showing "0" days of term adjustment and the face page of the patent which was printed with "50 days" of patent term adjustment.

Applicant believes there is no term adjustment for this patent and that the error is a Patent Office error in the printing of the patent..

Respectfully submitted,

Donald M. Hill, Jr.
Registration No. 40,646
